Independent Auditor's Report

To the City Council
City of Big Spring, Texas
and to the Board of Directors of
Big Spring Economic Development Corporation

We have audited the accompanying financial statements of the governmental activities and governmental fund of Big Spring Economic Development Corporation (BSEDC), a component unit of the City of Big Spring, Texas, as of and for the fiscal year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise BSEDC's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and governmental fund of Big Spring Economic Development Corporation, as of September 30, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 14 to the financial statements, in 2018 BSEDC adopted new accounting guidance, GASB No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of changes in the plan's net pension liability and related ratios, the schedule of contributions, the schedule of changes in the total OPEB liability and related ratios, and budgetary comparison information on pages 3 through 8 and pages 30 through 33 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
(Required Supplementary Information)**

INTRODUCTION

Our discussion and analysis of the Big Spring Economic Development Corporation's (BSEDC) financial performance provides an overview of the entity's financial performance for the fiscal year ending September 30, 2018. It should be read in conjunction with BSEDC's basic financial statements and independent auditor's report.

FINANCIAL HIGHLIGHTS

During the fiscal year 2017-2018, the BSEDC's net position decreased by 20 percent or \$896,794. This decrease is due to spending \$2.15 million on the Airpark rail project.

BSEDC closed the fiscal year ended September 30, 2018 with total assets and deferred outflows of \$4,432,523 and net position of \$3,543,565.

The balance of cash and investments at September 30, 2018 totaled \$3,330,261 which was a decrease of \$63,926. Liabilities increased by \$582,444 to \$859,922. Current liabilities at year end included the Railworks Track Systems contract in the amount of \$562,677, including retainage of \$111,285. This was the reason for the significant increase in liabilities at year end.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements and notes to those statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These provide information about the activities of BSEDC as a whole and present a long-term view of BSEDC's property, debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise. These statements are referred to as government-wide financial statements.

Fund financial statements include the Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance that report the operations in more detail than the government-wide statements by providing information about BSEDC's general fund. For governmental activities, these statements tell how services were financed in the short-term as well as what resources remain for future spending. They reflect the flow of current financial resources and supply the basis for tax needs and the appropriations budget.

The notes to the financial statements provide narrative explanations or additional data needed for full disclosure in the government-wide or the fund financial statements.

Government-Wide Statements

The analysis of BSEDC's overall financial condition and operations is reflected in these statements. Its primary purpose is to show whether the entity is faring better or worse as a result of the year's activities. The Statement of Net Position includes all of BSEDC's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. BSEDC's revenues are divided into those provided by outside parties (Big Spring Chamber of Commerce and United Way of Howard County) who share the costs of the building facility and revenues provided by sales tax or investment earnings (general revenues). All of BSEDC's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report BSEDC's net position and changes in them. The net position (the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources) provide one measure of BSEDC's financial health or financial position. Increases or decreases in net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of BSEDC however, you should consider non-financial factors as well, such as changes in the city's economic activity, stability, and workforce.

In the Statement of Net Position and the Statement of Activities, we present the activities of BSEDC as follows:

Government-wide activities - BSEDC's basic purpose is reported here, including the cost of maintaining the operation of economic development programs. Sales tax finances are the majority of these activities.

Fund Financial Statement

BSEDC requires only one fund to maintain its operations and programs. The fund financial statements provide information about the fund, not the entity as a whole.

BSEDC's basic operations and services are reported in a government (General) fund. This fund uses modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and reports balances that are available for future spending. The governmental fund statement provides a detailed short-term view of BSEDC's general operations and the basic services it provides. We describe the differences between government-wide activities (reported in the Statement of Net Position and the Statement of Activities) and governmental fund in the reconciliation schedules following each of the fund financial statements.

GOVERNMENT FINANCIAL ANALYSIS

We present both current and prior year data and discuss significant changes in the accounts. Our analysis focuses on the Net Position (Table I) and Changes in Net Position (Table II) of BSEDC's governmental activities.

**Table I
Net Position**

	Governmental Activities	
	2018	2017
Current and Other Assets	\$ 4,279,636	\$ 4,536,483
Capital Assets	132,175	138,601
Total Assets	<u>\$ 4,411,811</u>	<u>\$ 4,675,084</u>
Deferred Outflows of Resources	\$ 20,712	\$ 55,424
Current Liabilities	\$ 622,193	\$ 56,013
Noncurrent Liabilities	237,729	221,465
Total Liabilities	<u>\$ 859,922</u>	<u>\$ 277,478</u>
Deferred Inflows of Resources	\$ 29,036	\$
Net Investment in Capital Assets	\$ 132,175	\$ 138,601
Unrestricted	3,411,390	4,314,429
Total Net Position	<u>\$ 3,543,565</u>	<u>\$ 4,453,030</u>

Total assets and deferred outflows of BSEDC's governmental activities decreased from \$4,730,508 to \$4,432,523. Unrestricted net position is the part of net position that can be used to finance day-to-day operations without constraints established by enabling legislation or other legal requirements. This balance was \$3,411,390 at September 30, 2018.

**Table II
Changes in Net Position**

	Governmental Activities	
	2018	2017
Revenues:		
General Revenues		
Sales Taxes	\$ 2,616,131	\$ 2,242,995
Investment Earnings	61,234	67,563
Rents	6,900	6,900
Miscellaneous	4,125	5,339
Total Revenues	<u>\$ 2,688,390</u>	<u>\$ 2,322,797</u>
Expenses:		
General Government	\$ 314,611	\$ 282,793
Economic Development	2,520,573	273,443
Water and Waste Water Project	750,000	750,000
Total Expenses	<u>\$ 3,585,184</u>	<u>\$ 1,306,236</u>
Change in Net Position	\$ (896,794)	\$ 1,016,561
Beginning Net Position	4,453,030	3,436,469
Prior Period Adjustment	(12,671)	
Ending Net Position	<u>\$ 3,543,565</u>	<u>\$ 4,453,030</u>

Total revenues increased from \$2,322,797 in fiscal year 2017 to \$2,688,390 in fiscal year 2018, an increase of 16 percent. This increase was due to the increase in sales tax revenues.

Total expenses increased from \$1,306,236 in the preceding year to \$3,585,184 for the year ending September 30, 2018 which reflects an increase of 174 percent or \$2,278,948. As mentioned previously, this increase in expenses is due to spending \$2.15 million on the Airpark rail project.

Operating expenses exceeded revenues by \$896,794.

FUND BALANCES

As BSEDC completed the year, its governmental fund reported a fund balance of \$3,657,443 which is less than last year's balance of \$4,480,470. This \$823,027 decrease is from expenses exceeding revenues during the year. \$482,226 of fund balance is in non-spendable and is invested in prepaid items, land inventory, and notes receivable.

BUDGET AND PLANNING

The original budget for 2017-2018 was developed in the summer of 2017 and adopted by the Board in August 2017. This budget was approved by the City of Big Spring in September 2017. The budget was amended to include additional economic development grants to the City of Big Spring related to the rail project at the Airpark.

LAND INVENTORY

The 315 acres of unimproved real estate continues to be held for future needs.

CAPITAL ASSETS

At the end of 2018, BSEDC had \$132,175 invested in various capital assets including facilities and equipment.

DEBT

BSEDC has no long-term debt other than pension, OPEB, and accrued compensated absences obligations.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

BSEDC's appointed directors considered many factors when setting the fiscal year 2018-2019 budget. Sales tax collection, which accounts for the majority of BSEDC revenues, are projected to match or even exceed 2017-2018 receipts. 2018-2019 receipts could approach the levels never achieved in the history of the corporation. Activity and stronger prices in crude oil has affected sales tax revenue and will impact budgeted revenue. We see the recent increase in oil prices stimulating activity in the region and we are seeing wind re-power projects and pipeline construction bolstering the economy.

The construction of the \$135 million US Highway 87 reliever route from South US Highway 87 around the west side of town connecting with North US Highway 87 should be completed early in 2019. This addition will create new opportunities for development and new business location along the route.

The restoration of Big Spring's name sake, The Big Spring, generated great interest and excitement in the community in 2018. A new effort to rehabilitate the WPA "Works Progress Administration" and CCC "Civilian Conservation Corp" era amphitheater will create a new entertainment venue and will be an attraction for tourists and a great educational tool for the whole region. We are already seeing positive economic impacts from these projects in the form of sales tax and hotel motel tax.

BSEDC has completed the \$2.47 million rail infrastructure project on the Airpark. The goal is to develop the facility and create the "rail backbone" for the park. As businesses locate on the park, they will be responsible for rail infrastructure to meet their own needs. The completion of Phase IV will provide much needed storage capacity for existing businesses and complete the lead that will make its way the full length of the tarmac, creating opportunities for new business location at the Airpark. The Board has directed staff to proceed with surveying, engineering and planning for the rehab of the main line connecting the Industrial Park to Union Pacific. This section of the line is the umbilical to the Industrial Park, and we have found that the investment in rail infrastructure continues to fuel growth of existing companies and attraction for new business.

The short line rail operator at the Airpark had a slight decrease in business during the past year due to sagging oil prices and crude oil being stranded in the Permian Basin. Rail car shipments for 2018-2019 should exceed 3000 with expected movements of horizontal pipeline pipe, wind components, sand and chemicals.

The increase in oil activity has rejuvenated many areas of the economy. Sales tax, new construction, increased jobs, low unemployment all indicate strong growth. We feel this trend will continue throughout 2018-2019 and beyond.

BSEDC continues its contract with Leading EDG to provide business counseling and facilitation to startups, existing business and entrepreneurs needing assistance in becoming vital businesses in Big Spring. The service is being well utilized by the community, and it has had several successes.

Western Container announced closure of its facility in late 2016. BSEDC successfully marketed the building through a marketing campaign and now has two new tenants occupying the building. We will enter into another campaign this year to promote other areas of the Industrial Park. The campaign will focus on promoting Big Spring as a warehousing, distribution, intermodal and transportation hub. BSEDC will continue to utilize the marketing video to promote the Airpark and planned infrastructure improvements including rail and the new reliever route. The video piece along with the logistics study done in 2016 pieces will be utilized at trade shows and marketing events primarily focused on logistics.

BSEDC's sole purpose is to stimulate the local economy by providing incentives and marketing support for industrial development. To that end, it is impossible to predict at the start of the budget process how many or what types of economic development projects will present themselves for consideration. Thus, at any given point throughout the fiscal year, a small or large portion of fund balance could become encumbered as incentives to fulfill BSEDC's mission.

CONTACTING FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the BSEDC's finances and to demonstrate BSEDC's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be directed to the Terry Wegman, Big Spring Economic Development Corporation, Post Office Box 3359, Big Spring, Texas 79721.

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

1. REPORTING ENTITY

Big Spring Economic Development Corporation (BSEDC) was incorporated under the laws of the State of Texas and operates under a Board of Directors which is appointed by the City Council of Big Spring, Texas. The corporation is a non-profit corporation created under the Texas Development Corporation Act of 1979 and is governed by Section 4A of Article 5190.6 of the Revised Civil Statutes of the State of Texas. The purpose of the corporation is to promote, assist and enhance economic development for Big Spring, Texas. It is funded by a one-half cent sales tax.

The corporation was originally incorporated as Moore Development for Big Spring, Inc.

BSEDC is a component unit of the City of Big Spring, Texas (the City). It is legally separate from the City, but the City Council appoints its five directors and approves the annual budget of BSEDC. The financial statements presented here are also included in the comprehensive financial report of the City.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As a component unit of the City, the BSEDC's financial reporting policies conform to the accounting principles generally accepted in the United States of America applicable to its primary government (Big Spring).

Basis of Accounting and Presentation

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the government-wide entity as a whole. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

These government-wide financial statements were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The Statement of Activities demonstrates the degree to which the direct expenses of a given description are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific description. Program revenues include charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given description or segment.

BSEDC reports all direct expenses in the Statement of Activities. Direct expenses are those that are clearly identifiable with a description. Indirect expenses of other types are not allocated but are reported separately in the Statement of Activities. Depreciation expense is reported in the Statement of Activities under general government expenses.

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

Fund Financial Statements

BSEDC applies GASB Statement No. 54, which redefined how fund balances of the governmental funds are presented in the financial statements. Fund balances are classified as follows:

Nonspendable fund balance – amounts that are not in spendable form (such as inventory) or are required to be maintained intact.

Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed fund balance – amounts constrained to specific purposes by BSEDC itself, using its highest level of decision-making authority. To be reported as committed, amounts cannot be used for any other purpose unless BSEDC takes the same highest level action to remove or change the constraint.

Assigned fund balance – amounts BSEDC intends to use for a specific purpose. Intent can be expressed by an official or body to which BSEDC delegates authority.

Unassigned fund balance – amounts that are available for any purpose.

For the fiscal year ended September 30, 2018, BSEDC's fund balance was categorized as nonspendable and unassigned.

Financial statements are provided for the governmental fund.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, BSEDC considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues from local sources consist primarily of sales taxes. Miscellaneous revenues are recorded when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

BSEDC reports the following governmental fund:

General Fund

This fund is established to account for financial resources used for BSEDC's operations. This is a budgeted fund and unassigned fund balances are considered resources available for current operations.

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

Budgets and Budgetary Accounting

The annual budget is presented on the modified accrual basis of accounting. The current year's budget was adopted in August 2017 and was approved by the City Council in September 2017.

Encumbrances

Encumbrance accounting is not utilized by BSEDC because of its small size and its relatively simple operations.

Cash and Cash Equivalents

BSEDC has defined cash and cash equivalents to include cash in bank.

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation on all capital assets is provided on the straight-line basis over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Buildings	40 years
Building Improvements	10 years
Computer Equipment	5 years
Other Equipment	5 - 10 years

3. INVESTMENTS POLICIES AND RISK

Legal and Contractual Provisions Governing Deposits and Investments

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires BSEDC to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

Statutes authorize BSEDC to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds. The Act also

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

requires BSEDC to have independent auditors perform test procedures related to investment practices as provided by the Act. BSEDC is in substantial compliance with the requirements of the Act and with local policies.

Policies Governing Deposits and Investments

In compliance with the Public Funds Investment Act, BSEDC has adopted a deposit and investment policy. That policy addresses the following risks:

- a. **Custodial Credit Risk – Deposits and Investments:** In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits and investments in certificates of deposits may not be returned to it. BSEDC's policy does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits and investments, other than the following: The State of Texas requires that a financial institution secure deposits and investments made by state or local governments by pledging securities in excess of the highest cash balance of the government. BSEDC is not exposed to custodial credit risk, for its deposits are all covered by depository insurance and securities pledged by the depository bank.
- b. **Concentration of Credit Risk –** The investment policy of BSEDC contains no limitations on the amount that can be invested in any one issuer. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent five percent or more of the total entity investments represent a concentration risk. As of September 30, 2018, BSEDC's investments are with Western Bank which are covered by FDIC insurance and pledged securities, and as such BSEDC has no risk.
- c. **Credit Risk –** The risk that an issuer of other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. As of September 30, 2018 BSEDC was not significantly exposed to credit risk.
- d. **Interest Rate Risk –** Not applicable.
- e. **Foreign Currency Risk –** Not applicable and is not covered by the investment policy.

4. CASH AND CASH EQUIVALENTS

At September 30, 2018, the carrying amount of BSEDC's cash and cash equivalents was \$3,330,261, with a bank balance of \$3,476,815. BSEDC's cash and cash equivalents at September 30, 2018, and during the year ended were entirely covered by FDIC insurance and securities pledged by the depository bank.

5. DUE FROM/TO OTHER GOVERNMENTS

At September 30, 2018, BSEDC had \$467,149 due from the City of Big Spring related to two months of sales tax revenue that came in subsequent to year end.

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

At September 30, 2018, BSEDC owed \$58,287 to the City of Big Spring related to reimbursement for salaries and benefits and various other items paid on their behalf.

6. NOTES RECEIVABLE

Notes receivable consists of cash incentives given to companies for the purpose of creating and maintaining new full-time positions in Big Spring. These receivables are structured to be forgiven as the companies meet the required performance agreements established by BSEDC. As of September 30, 2018, the outstanding notes receivable balance is \$405,000.

7. LAND INVENTORY

Land inventory consists of 315 acres of land acquired for marketing purposes and future economic development. As of September 30, 2018, BSEDC had land inventory with a balance of \$67,980.

8. CAPITAL ASSETS

	Balance 10/1/2017	Increases	Transfers/ Decreases	Balance 9/30/2018
Governmental Activities:				
Capital Asses Not Being Depreciated				
Land	\$ 25,000	\$	\$	\$ 25,000
Total Capital Assets Not Being Depreciated	\$ 25,000	\$ 0	\$ 0	\$ 25,000
Depreciable Assets:				
Buildings and Improvements	\$ 238,013	\$	\$	\$ 238,013
Furniture and Equipment	51,981		2,245	49,736
Total Depreciable Assets	\$ 289,994	\$ 0	\$ 2,245	\$ 287,749
Less Accumulated Depreciation for:				
Buildings and Improvements	\$ 126,725	\$ 5,562	\$	\$ 132,287
Furniture and Equipment	49,668	864	2,245	48,287
Total Accumulated Depreciation	\$ 176,393	\$ 6,426	\$ 2,245	\$ 180,574
Total Depreciable Assets, Net	\$ 113,601	\$ (6,426)	\$ 0	\$ 107,175
Governmental Activities Capital Assets, Net	\$ 138,601	\$ (6,426)	\$ 0	\$ 132,175

Depreciation expense totaling \$6,426 was recognized in the Statement of Activities under general government.

9. OFFICE RENTAL AND UTILITIES REIMBURSEMENT

BSEDC leases office space to the Big Spring Chamber of Commerce and Howard County United Way. The duration is indefinite and was established as a verbal extension of a three-year lease that expired in May 1999. The monthly rent is \$575 plus 50% of shared utility costs.

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

10. RISK MANAGEMENT

BSEDC is exposed to various risks of loss to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. BSEDC carries commercial insurance for these risks.

Workers' Compensation Pool - BSEDC's employees are covered by the City's workers' compensation plan. The City's workers compensation plan is administered by Texas Municipal League's Intergovernmental Risk Pool (TML). TML is a self-funded pool operating as a common risk management and insurance program and the City pays an annual premium for this coverage. The City has acquired stop-loss coverage, which limits the City's possible loss to \$250,000 per occurrence.

11. ACCRUED COMPENSATED ABSENCES

Compensated absences consists of vacation leave, sick leave, and compensatory leave. Vacation leave of 5-20 days is granted to all regular employees dependent upon the date employed, years of service, and civil service status. Currently, two times the employee's annual accrual of vacation leave may be "carried over" to the next calendar year. The City is obligated to make payment upon retirement or termination for employees in good standing for any available, unused vacation and compensatory leave. Sick leave for employees is accrued at 5-15 days per year. After 20 years of continuous full-time service for non-civil service personnel, vested sick leave is paid on retirement or termination at the current hourly rate for up to 90 days. Post-Employment Benefits for retirees of the City include the option to purchase health insurance.

12. PENSION PLAN

Plan Description

BSEDC participates through the City of Big Spring, Texas (City) as one of 883 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmrs.com.

All eligible employees of the City are required to participate in TMRS.

Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payment options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

Currently the City has adopted the following provisions related to the pension plan:

	<u>December 31, 2017</u>
Employee Deposit Rate	7%
Matching Ratio (City to Employee)	2 to 1
Years Required for Vesting	5
Service Requirement Eligibility (Expressed as Age / Years of Service)	60/5,0/20
Updated Service Credit	100% Repeating, Transfers
Annuity Increase (to Retirees)	70% of CPI Repeating

Employees Covered by Benefit Terms

At the December 31, 2017 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	0
Inactive Employees Entitled to but not Yet Receiving Benefits	0
Active Employees	<u>2</u>
Total Plan Employees	<u><u>2</u></u>

Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for BSEDC were required to contribute 7.00% of their annual gross earnings during the fiscal year. The required contribution rates for the City were 16.93% and 17.38% in calendar years 2017 and 2018, respectively. BSEDC's contributions to TMRS for the year ended September 30, 2018, were \$26,027, and were equal to the required contributions.

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

Net Pension Liability

BSEDC's Net Pension Liability (NPL) was measured as of December 31, 2017, and the Total Pension Liability (TPL) used to calculate the NPL was determined by an actuarial valuation as of that date.

Actuarial Assumptions

Inflation	2.5% per year
Overall Payroll Growth	2.7% per year
Investment Rate of Return	6.75%, net of pension plan investment expense, including inflation
Amortization Period	28 years

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Table with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

Actuarial assumptions used in the December 31, 2017, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period December 31, 2010 through December 31, 2014. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive).

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return (Arithmetic)</u>
Domestic Equity	17.5%	4.55%
International Equity	17.5%	6.35%
Core Fixed Income	10.0%	1.00%
Non-Core Fixed Income	20.0%	3.90%
Real Return	10.0%	3.80%
Real Estate	10.0%	4.50%
Absolute Return	10.0%	3.75%
Private Equity	5.0%	7.50%

Discount Rate

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Changes in Net Pension Asset (Liability)

	<u>Total Pension Liability</u>	<u>Plan Fiduciary Net Position</u>	<u>Net Pension Asset (Liability)</u>
Balance 12/31/2016	\$ 653,004	\$ 467,575	\$ (185,429)
Service Cost	30,102		(30,102)
Interest (on the Total Pension Liability)	74,355		(74,355)
Difference Between Expected and Actual Expenses	(9,894)		9,894
Contributions - Employee		10,186	10,186
Contributions - Employer		24,955	24,955
Net Investment Income		119,577	119,577
Benefit Payments	(52,953)	(52,953)	
Administrative Expense		(620)	(620)
Other	54,375	(31)	(54,406)
Balance 12/31/2017	<u>\$ 748,989</u>	<u>\$ 568,689</u>	<u>\$ (180,300)</u>

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of BSEDC, calculated using the discount rate of 6.75%, as well as what BSEDC's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

<u>1% Decrease</u>	<u>Current Rate Assumption</u>	<u>1% Increase</u>
\$ 343,400	\$ 180,300	\$ 47,179

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the Internet at www.tmrs.com.

Pension Expense, Deferred Outflows, and Deferred Inflows Related to Pensions

For the year ended September 30, 2018, BSEDC recognized pension expense of \$41,055 and calculated as shown below:

Total Service Cost	\$ 30,102
Interest on the Total Pension Liability	74,355
Employee Contributions (Reduction of Expense)	(10,186)
Projected Earnings on Plan Investments (Reduction of Expense)	(58,255)
Administrative Expense	620
Other Changes in Fiduciary Net Position	31
Recognition of Current Year Outflow (Inflow) of Resources-Liabilities	3,253
Recognition of Current Year Outflow (Inflow) of Resources-Assets	1,135
Total Pension Expense	<u>\$ 41,055</u>

At September 30, 2018, BSEDC reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Deferred Outflows/(Inflows) of Resources - Pension Plan</u>	<u>Plan Year</u>	<u>Amount</u>	<u>Remaining Amortization Period</u>
Employer Contribution Deferrals	2018	\$ 19,813	1.000
Differences Between Projected and Actual Investment Earnings	2014	2,029	1.000
Differences Between Projected and Actual Investment Earnings	2015	22,764	2.000
Differences Between Projected and Actual Investment Earnings	2016	(34)	3.000
Differences Between Projected and Actual Investment Earnings	2017	(49,058)	4.000
Differences Between Expected and Actual Economic Experience	2016	2,113	1.230
Differences Between Expected and Actual Economic Experience	2017	(6,850)	2.250
Total Deferred Outflows/(Inflows) of Resources		<u>\$ (9,223)</u>	

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Plan Year</u>	<u>Amortization of Deferred Outflows</u>
2018	\$ 19,622
2019	(3,543)
2020	(13,037)
2021	(12,265)
2022	
	<u>\$ (9,223)</u>

13. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

Plan Description:

Texas Municipal Retirement System (TMRS) administers a defined benefit group-term life insurance plan known as the Supplemental Death Benefits Fund (SDBF). This is a voluntary program in which participating member cities may elect, by ordinance, to provide group-term life insurance coverage for their active members, including or not including retirees. The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death). The death benefit for retirees is considered an OPEB and is a fixed amount of \$7,500. As the SDBF covers both active and retiree participants, with no segregation of assets, the SDBF is considered to be an unfunded OPEB plan.

The member city contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to pre-fund retiree term life insurance during employees' entire careers.

Benefits Provided:

The plan provides a \$7,500 post-retirement death benefit to beneficiaries of service retirees and disability retirees of employers that have elected participation in the SDBF. The OPEB benefit is a fixed \$7,500 lump-sum benefit and no future increases are assumed in the benefit amount.

The SDBF fund does not meet the requirements of a trust under Paragraph 4b of GASB No. 75, as the assets of the SDBF can be used to pay active SDBF benefits which are not part of the OPEB plan. The contributions for retiree SDBF coverage are assigned to the OPEB plan under GASB 75 and are used to determine the benefit payments shown in the changes in the total OPEB liability.

Benefit terms are established under the TMRS Act. Participation in the retiree SDBF is optional and the employer may elect to opt out of (or opt into) coverage as of January 1 each year. BSEDC's contribution rate for the retiree SDBF program is calculated annually on an actuarial basis, and is equal to the cost of providing a one-year death benefit equal to \$7,500.

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

Employees Covered by Benefit Terms:

At the December 31, 2017 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	0
Inactive Employees Entitled to but not Yet Receiving Benefits	0
Active Employees	2
Total Plan Employees	<u>2</u>

Total OPEB Liability:

BSEDC's total OPEB liability of \$14,467 was measured as of December 31, 2017, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions:

The total OPEB liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions:

Actuarial Cost Method	Entry Age Normal
Amortization Method	
Recognition of Economic/Demographic Gains and Losses and Assumptions Changes or Inputs	Straight-Line Amortization over Expected Working Life
Inflation	2.5%
Salary Increases	3.50% to 10.5% including inflation
Discount Rate	3.31%
Retirees' Share of Benefit-Related Costs	\$0
Administrative Expenses	All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68.
Mortality Rates – Service Retirees	RP2000 Combined Mortality Table with Blue Collar Adjustment with male rates multiplied by 109% and female rates multiplied by 103% and projected on a fully generational basis with scale BB.
Mortality Rates – Disabled Retirees	RP2000 Combined Mortality Table with Blue Collar Adjustment with male rates multiplied by 109% and female rates multiplied by 103% with a 3 year set-forward for both males and females. The rates are projected on a fully generational basis with scale BB to account for future mortality improvements subject to the 3% floor.

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

The TMRS SDBF is treated as unfunded OPEB plan because the SDBF trust covers both actives and retirees and the assets are not segregated for these groups. Under GASB 75 (paragraph 155), the discount rate for an unfunded OPEB plan should be based on 20-year tax-exempt AA or higher Municipal Bonds. Therefore, a discount rate of 3.31% based on the 20 Year Bond GO Index published by bondbuyer.com is used as of the measurement date of December 31, 2017. At transition, GASB 75 also requires that the Total OPEB Liability (TOL) as of the prior fiscal year end be estimated based on the 20 Year Bond GO Index.

Annuity Purchase Rates:

Annuity purchase rates are used to determine the amount of the monthly benefit at the time of retirement for both healthy and disabled annuitants, the annuity purchase rates (APRs) for 2014 are based on the UP-1984 Table with an age setback of two years for retirees and an age setback of eight years for beneficiaries. Beginning in 2027 the APRs will be based on a unisex blend of the RP-2000 Combined Healthy Mortality Tables with Blue Collar Adjustment for males and females with both male and female rates multiplied by 107.5% and projected on a fully generational basis with scale BB. For members, a unisex blend of 70% of the males table and 30% of the female table is used, while 30% of the male table and 70% of the female table is used for beneficiaries. From 2015 through 2026, the fully generational APRs will be phased into.

Experience Studies:

Actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four year period from December 31, 2010 to December 31, 2014. They were adopted in 2015 and first used in the December 31, 2015 actuarial valuation. The post-retirement mortality assumption for healthy annuitants and Annuity Purchase Rate (APRs) are based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. TMRS uses the experience studies as a basis for determining assumptions, except where required to be treated different by GASB 75.

Changes in the Total OPEB Liability:

Balance as of December 31, 2016	\$	12,671
Changes for the year:		
Service Cost		436
Interest on Total OPEB Liability		484
Effect of Assumptions Changes or Inputs		1,027
Benefit Payments		(151)
Balance as of December 31, 2017	\$	<u>14,467</u>

Changes of assumptions or other inputs reflect a change in the discount rate from 2016 to 2017.

There were no changes of benefit terms that affected measurement during the measurement period.

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

Sensitivity Analysis:

The following presents the Total OPEB Liability of the employer, calculated using the discount rate of 3.31%, as well as what the Total OPEB Liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.31%) or 1 percentage point higher (4.31%) than the current rate. Note that the healthcare cost trend rate does not affect the Total OPEB Liability, so sensitivity to the healthcare cost trend rate is not shown.

	1% Decrease in Discount Rate (2.31%)	Discount Rate (3.31%)	1% Increase in Discount Rate (4.31%)
Total OPEB Liability	\$ <u>17,101</u>	\$ <u>14,467</u>	\$ <u>12,408</u>

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:

For the year ended September 30, 2018, BSEDC recognized OPEB expense of \$1,150. At September 30, 2018, BSEDC reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Changes in Assumptions	\$ 796	\$
Contributions Made Subsequent to Measurement Date	<u>103</u>	<u></u>
	<u>\$ 899</u>	<u>\$ 0</u>

Amounts currently reported as deferred outflows of resources and deferred inflows of resources related to OPEB benefits will be recognized in OPEB expense as follows:

	<u>Amortization of Deferred Resources</u>
2018	\$ 334
2019	231
2020	231
2021	103
2022	0
Thereafter	<u>0</u>
	<u>\$ 899</u>

BIG SPRING ECONOMIC DEVELOPMENT CORPORATION

NOTES TO BASIC FINANCIAL STATEMENTS

14. PRIOR PERIOD ADJUSTMENTS

During the year BSEDC adopted new accounting guidance, GASB No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, the effect of adopting this standard reduced beginning net position by \$12,671.

During the year a prior period adjustment was made to fund balance in the amount of \$67,980 to record land inventory in the general fund. This increased land inventory and fund balance by that amount. There was no effect on the statement of net position.

15. HEALTH CARE BENEFITS

Health insurance benefits are provided to the employees of BSEDC through the City's self-insured health insurance plan. The City's health insurance plan is administered by a third-party administrator, Texas Municipal League's Multistate Intergovernmental Employee Benefits Pool (TMLIEBP). TMLIEBP reviews and processes all health insurance claims. The City has acquired stop-loss coverage, which limits the City's possible liability exposure to \$90,000 per claim. BSEDC's health insurance cost of \$7,199 includes health insurance for only one employee.

BSEDC does not provide post-retirement health benefits to its employees.

16. CONTINGENCIES AND SUBSEQUENT EVENTS

BSEDC has no litigation pending which would have a material impact on the financial statements.

Management has evaluated subsequent events through January 17, 2019, the date which the financial statements were available to be issued.

17. COMMITMENT TO THE CITY OF BIG SPRING

In May, 2012 the citizens of Big Spring voted to fund a 4B project to rehabilitate the City's water and waste water treatment plants including repair or replacing water distributions lines. As a part of that agreement with the City, BSEDC was obligated to fund \$750,000 on January 1, 2016. In later years and through 2033 BSEDC is obligated to pay 40% of its sales tax revenue except the payment cannot exceed \$750,000 or be less than \$500,000. This agreement has a term ending in 2033 or a total amount of \$13,000,000.

	<u>Total Project</u>	<u>Expended to Date</u>	<u>Commitment</u>
Water & Waste Water	\$ 13,000,000	\$ 4,500,000	\$ 8,500,000

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
BUDGETARY COMPARISON SCHEDULE
SEPTEMBER 30, 2018**

BUDGETARY DATA

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- a. Prior to the beginning of the fiscal year, BSEDC prepares a budget for the next succeeding fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- b. A meeting of the Board of Directors is then called for the purpose of adopting the proposed budget. At least 72 hours public notice of the meeting must have been given.
- c. Prior to the start of the fiscal year, the budget is legally enacted through passage of a resolution by the City of Big Spring City Council.

Once a budget is approved, it can be amended only by approval of a majority of the members of the Board of Directors and approval from the City of Big Spring City Council. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board of Directors and are not made after fiscal year end. The legal level of control is at the function level. During the year, the budget was amended as necessary. All budget appropriations lapse at year end.

The budget is presented on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).
